A diagram of a mechanical system. A central blue rectangular mass is connected to two smaller blue rectangular masses on either side by two identical zigzag springs. A red arrow points to the left from the leftmost mass, and a green arrow points to the right from the rightmost mass. Above the central mass, a black arrow points upwards towards a grey ruler-like scale.

Force 1

A diagram of a mechanical system. A central blue rectangular mass is connected to two smaller blue square masses on either side by two identical springs. A red arrow points to the left from the left square mass, and a green arrow points to the right from the right square mass. A black arrow points upwards from the center of the central mass, and a small vertical scale bar is positioned above it.

Force 1

Underdetermined Mass-Spring System

A diagram illustrating a mass-spring system. A central blue rectangular block is positioned on a horizontal surface. Two springs are attached to the block, one extending to the left and one to the right. The left spring is connected to a red arrow pointing left, and the right spring is connected to a green arrow pointing right. A vertical arrow points upwards from the center of the block, and a small icon of a ruler or scale is positioned above it.
